ALWAYS THE BEST—THE

KIMBALL

What do you know of the Kimball?

Know that it merits its fame;

Know that 'tis built upon honor;

Know that it is always the same.

What do you hear of the Kimball?

Hear that it has taken the prize;

Hear that it is growing in value;

Hear that the prices will rise.

What do you hear of the Kimball?

Tones that are wondrous and rare;

Tones that have won for it glory,

Medals and fame at "the Fair."

What do you think of the Kimball?

It is endeared to my heart,

So that when once I can get one,

Never from it will I part.

CHICAGO, Nov. 24.—(By the Associated

Press.) The Daily News' Wash-

ington special says that Secretary

Gresham has attempted to absolve him-

self from all responsibility for the ad-

ministration's Hawaiian policy. In con-

versation with a personal friend, the

Secretary stated that he had nothing to

do with the framing of the policy

which was inaugurated by "Param-

ount" Blount, and which was sought

to be enforced by Minister Willis.

The Secretary stated that before he

was invited to his seat in the Cabinet,

President Cleveland had formulated his

Hawaiian policy; that he had declared

the dethronement of the Queen was un-

just, and that his determination was

to re-enthronize her; that the President,

without consulting the Secretary of

State, determined upon the appoint-

ment of a special commissioner, and

selected Blount, without the knowledge

of the Secretary of State, and, in fact,

the latter officer scarcely knew Blount

at sight at that time.

The Secretary of State said further

that the instructions to Blount, and

also those to Willis, were prepared at

the White House. The intimation is

made by him that he scarcely knew

Blount, and that he was not prepared

to be held responsible for the Hawaiian

policy, which he said was the work

of the President and of "Paramount"

Blount. Willis, however, was delivered

by the hand of President Cleveland.

Coroner Osborn, the remains of Han-

nah Wintall, which were buried here

on October 26, were exhumed. The

young lady died at Seattle, Wash., on

October 16, under suspicious cir-

cumstances. She lived with her uncle,

George Pollock, who verbally agreed

to give her a large estate upon his

death.

Mr. and Mrs. Pollock and Hannah

on the same night, Hannah was taken

seriously ill at the European Hotel.

She went into convulsions and died.

A post mortem was held and an eight-

Encouraging Features of the Market.

The Los Angeles Savings Banks are All Right.

Hopes That are Founded on the New Railroad.

Easterners not Coming as Fast as Was Expected—Land Frauds—Subdivisions in Demand—Western Avenue—Pasadena Electric Road.

While the real-estate market has been decidedly quiet during the past week, there have been some encouraging features, which lead dealers to anticipate a marked revival between now and New Year's. In the first place, the notice which has been given by a majority of the savings banks that they will pay deposits on hand given notice of withdrawal without waiting for the expiration of the legal term, has had a most encouraging effect on the money market. There was an element of uncertainty in connection with this savings-bank business, which caused many intending investors to hesitate. The fact that the banks are now ready to meet their obligations, even before they are due, is taken as evidence that those institutions are in a solid condition. It is not necessary to say how much the condition of the real-estate market depends on the money market. As soon as the depositors have been settled with, the savings banks will probably see the way to adopt a more liberal policy in making loans on real estate, and this will still further strengthen the market.

NEVADA SOUTHERN RAILWAY. Another feature which has helped to give a good tone to the market during the past week has been the encouragement met with by those gentlemen who have been soliciting subscriptions to the stock of the Nevada Southern Railway, and the probability that this new enterprise will soon be an accomplished fact. Those who have watched the course of the real-estate market in Los Angeles during the past twenty years, have noticed that the most important upward movements have closely followed the completion of new lines of railway connection with the outside world. Such, for instance, was the effect of the arrival of the Southern Pacific in Los Angeles from the North. Again, there was a strong movement when the Sunset route came to a junction with the Eastern lines at Denning. The effect which followed the coming of the Santa Fe system is fresh in the minds of most of our readers. Now, it is argued, and with much apparent justice, that the completion of this new transcontinental line by way of Southern Utah and Nevada is bound to have an equally important effect on the value of real estate in this city. Those who watch the signs of the times are inclined to take a most encouraging view of the immediate future.

ARRIVALS FROM THE EAST. It must be confessed that, so far, the stream of arrivals from the East, which we have been led to expect in such large numbers, has not yet begun to materialize to the extent that was anticipated. At the same time, it is a fact that there are more actual settlers now arriving than at any time since the boom. It is probable that the number will be largely augmented after Christmas, as many people like to spend the holidays at home among their friends, before they leave to settle in a new country. From letters which have been received from the East, it is evident that a great many people have made up their minds to come to Southern California to live, and will be unable to get away for some time to come. The financial depression is still very severely felt throughout the country. It is very difficult to dispose of property, even when a decided reduction in price is made, and these intending settlers can not tell out there, unable to leave for the Land of Promise. We may, therefore, expect that the stream of immigration will not set in with full force until the spring, when some improvement in business throughout the East. After that new settlers will come in from time to time all through the year, without regard to any particular season. Advice from the East continues to indicate that the number of people who have determined upon settling in California is still exceedingly large, but, as stated, they cannot get away until they are able to dispose of their property, and for this reason we do not feel disappointed if the number of new arrivals during the present winter is not quite so large as we have been led to expect. Those new arrivals who settle in the city, with the intention of settling are taking their time to make up their minds in regard to a location. The real estate agents are kept busy driving the people around, but so far, no very large number of sales have been made. Everything in Southern California is so entirely new to a person just in from east of the mountains, that he is liable to become confused, and it takes him some time to get his bearings and obtain a definite idea in regard to the comparative value and capabilities of our soil. Various sales go greatly in character within a limited area. The new arrival finds it quite difficult to understand why one piece of land should be rated at \$250 an acre, while another piece adjoining can be had for \$25. It is difficult to make them understand the enormous difference between the value of land with and land without water.

LAND FRAUDS. Reputable real estate dealers of this section have with delight the conviction and sense of the soundness of Raymond, who has been imposing on Eastern people by selling worthless land at \$100 an acre. The operations of this scoundrel have been very extensive and everyone who has been victimized by him has, of course, received an unfavorable impression of the manner in which real estate affairs are conducted in Southern California. It is all very well to assure a man who has been fleeced in this manner that it is a Southern thing, a Southern case, but he naturally feels sore and tells his neighbors all about it, who in turn tell their friends, the result being that the South is being regarded as another black eye, and honest real estate dealers have to suffer. The conviction of Raymond will, it is hoped, serve as a warning to others of his kind. There is no doubt at all about this wretch being of base and irregular nativity on at least one side of the parental house. The Times will do its share towards exposing the operations of his kind which may come to light, without fear or favor. These men presume on the ignorance regarding California affairs which prevails throughout the East, and one of them can do more harm in a month than a dozen people who are laboring for the good of the section can offset in several years. Meantime, there are a few persons engaged in handling real estate in this section, who, while they do not go as far as Raymond, and sell absolutely worthless land, yet offer property for sale under false pretenses, exaggerate its merits and belittle its disadvantages to such an extent as to make it appear entirely different from what it is. These people also

will bear a little watching. "The truth about California" should be the motto of all who are engaged in handling real estate in this section.

SUBDIVISIONS IN DEMAND. During the past week there has been an encouraging demand for lots in several subdivisions, which have recently been placed upon the market. While this applies to all sections of the city, it is especially the case in the region east of Main street, which appears at last to be awakening from the lethargy which has afflicted it since the days of the boom. All this section was in orchard and vineyard during the height of the boom. Then came the establishment of the Arcade depot on the Wolfskill tract. This was the signal for a large number of subdivisions to be thrown on the market. They were cut up fast and furiously, and lots were sold at big prices as rapidly as the maps could be prepared, even to the people who had never seen them, expecting to make a quick turn at a good profit. Some of them did, but many were caught in the general slump, and either had to let their lots go because they could not meet the second or third payments, or else yielded them up and let them lie idle, yielding nothing but tax notices to the owners. It will be some time before some of these lots bring as much as owners paid for them, but the time will come, for there can be no question that, as the city pushes itself out in other directions, the level section between Main and Alameda streets, south of Third, will appreciate rapidly in value.

The parties interested in the Clark & Bryan tract, on San Pedro street, expect themselves as well satisfied with the result of their sales, as far as they have gone. A noteworthy fact is that several of the purchasers paid cash, although they were not required to do so. There are still a number of good lots for sale in this tract. Some of those who have purchased will undoubtedly be able to realize a handsome profit within the next six months. Several more lots have been sold in the Wolfskill tract, and others along Central avenue. A great many improvements are being made throughout that section, some of the houses being quite elegant structures.

John S. Park has sold three acres on Western avenue, near Adams street, to Mr. Judy of Los Angeles. The price is understood to be in the neighborhood of \$7500, the only improvements consisting of a barn. The purchaser will at once build a fine residence on the lot. Acreage property in the neighborhood of the western city limits is very firmly held at present. Shrewd operators who have seen the fortunes which have been made in large cities by the purchase of acreage in the line of the city's growth, are looking for bargains in this direction. Prices of acreage property just outside of the city, on the west, are, as a rule, very moderate, considering the possibilities of the immediate future.

THAT ELECTRIC ROAD. As mentioned last week, the parties who have undertaken the enterprise of building an electric railway from the foothills, back of Pasadena, to Los Angeles, and thence to the ocean, are actively at work. During the past week some of the property-owners on the Mission road, just outside of the city, along which the proposed line would pass, petitioned the Board of Supervisors to be allowed to relinquish ten feet on each side of the road, which would make it eighty feet wide. A coachload of gentlemen who are interested in this enterprise, drove over the route on Thursday. The construction of this line would be a great thing for the neglected section northeast of the city, much of which is at present in the same condition as when Los Angeles was a small pueblo, and the county a cattle ranch.

ANOTHER STREET RAILWAY. Last Monday a petition was presented to the Council for a street-railway franchise to be granted for the period of fifty years, over and along the following streets: Commencing at the south side of the Southern Pacific railroad on Main street, going south to junction of Main and New Main streets, thence along New Main street to city limits. The motive power to be used to propel cars on said railway to be horses or electricity. The petitioner stated that he wished in connection with this enterprise to ask the supervisors for a franchise beyond the city limits. Only a week ago reference was made in these columns to the extent of fine land just outside of the city limits on the south, which would make ideal suburban homes for the residents of Los Angeles, providing transportation facilities were furnished.

WATER SUPPLY. The water question, of which we have heard so much during the past year, has an important bearing on real estate. That is to say, the question of a good or poor supply of water in a section of the city makes a big difference in selling lots for homes and renting houses. It was principally miserable water supply which until recently kept back the progress of the hill section. Much progress has been made in this direction during the past year, but there are still some sections of the city which have cause for complaint. For instance, residents on Mesquite street have appealed to the Council to compel the City Water Company to furnish them with water. In this connection it may be mentioned that the City Engineer stated at the last Council meeting that there are more than two hundred miles of two-inch water pipes in this city. This is contrary to the provision in the city charter, which requires the water company to lay no pipe of less than four inches in diameter on any street. The Council has promised to look into the matter. The water company has certainly been treated with much liberality by the city, and it is not too much to expect that it should live up to the letter of its contract.

MONROVIA. Mr. Harris, a wealthy merchant of Ventura county, has purchased the fine Chase property at Monrovia, for \$12,000. Mr. Chase is a partner of Mr. Studebaker, the famous wagon-maker, and both gentlemen built fine residences at Monrovia several years ago. Monrovia, which was the most remarkable child of the boom, and is one of the most attractive suburban towns in the county, has been rather in the dumps during the past few years, but is coming now to a new revival. The purchase of the Monrovia Railroad by the Southern Pacific Company, and the inauguration of a regular train service from the Arcadia Depot, has been of great advantage to Monrovia, which is undoubtedly destined to become a favorite residence suburb with Angelenos who like to enjoy a little country quiet after the labors of the day are over.

still working hard to push that attractive section to the front. At a meeting of the Cahuenga Township Association, which was held at the schoolhouse a few days ago, the Committee on Water and Water Supply made a very encouraging report, from which it appeared a good supply of water for irrigation may be delivered in the Cahuenga Valley at a very slight cost. Under the plan proposed, only those who want water will have to pay for it, and then only when actually using it.

The Road Committee reported that a proposition was pending before the Board of Supervisors to abandon a portion of the old Cahuenga road lying between the western city limits near Sixth street and the Cahuenga schoolhouse, and that the matter would come up for a hearing by the board at 2 p.m. on the 29th inst. By unanimous vote it was declared to be the opinion of the association that the road should not be abandoned, and the Committee on Roads was instructed to oppose, by all legal means, such action by the Board of Supervisors. The Road Committee was also requested, in view of the present depleted condition of the Cahuenga road fund, to do what they can toward getting the people of the district, by volunteer work, to gravel and put in order for winter travel, that portion of Temple road from Vermont avenue to the city limits; and the same committee was further instructed to call in a body upon the City Council of Los Angeles and ask that Temple road, within the city limits, be likewise graded and put in decent order.

Meantime, the work of preparing a map of the district of assessment for the proposed Temple-street cut is now in progress. It will be remembered that the combined protests against the grading, as presented to the Council, represented more than a majority of the frontage represented. As a larger part of these protests are not legal, but merely an expression of opinion on the part of property-owners, the promoters of the enterprise claim there is no legal objection to proceeding with the work.

BUILDING NOTES. Building operations are still active all over the city. Owners of property are encouraged to build by the fact that the demand for desirable houses is much in advance of the supply.

The Builder and Contractor notes the following uncontracted new work: Mrs. Mary A. Hickson is having plans prepared for a three-story brick business and apartment block on lot No. 321 West Second street, which will cost \$5000.

Dr. Hughes will build a six-room cottage on Hoover and Clinton streets, to cost \$1200.

Plans are being prepared for Abraham Babin for a seven-room cottage on Twenty-seventh street, near Main; cost, \$1050.

Prof. Spurgeon Riley will build a seven-room cottage near Eleventh and Santa street; cost, \$2450.

Plans are being prepared for George J. Kuhrt, for a cottage, to be erected on Westman, near Kuhrt street, to cost \$1950.

BUILDING PERMITS. The following building permits have been issued by the City Superintendent of Buildings:

Langford Was in His
Right Mind.The Other Side of the Sensa-
tional Will Contest.Prominent Citizens of Pasadena on
the Witness Stand.Suit to Quiet Title to Lands in the Ballena
Ranch—Progress of the Crystal
Springs Water Case—
Court Notes.

The second half of the trial of the contest over the estate of the late Charles E. Langford of Pasadena, that is, the taking of the testimony for the proponent, was commenced before Judge Clark and a jury, in Department Two, yesterday, ten witnesses being examined during the day's session.

There were attorneys Frank J. Polley, M. C. Hester and G. A. Gibbs; P. B. Weatherly, a shoe dealer; President P. M. Green, of the First National Bank; Rev. D. D. Hill, W. L. Workman, a real-estate agent; T. J. Rigg, a druggist; J. Clark, and Mrs. Frank Marston, all of whom are well-known residents of Pasadena.

Their testimony, on the whole, was in direct contradiction to that introduced by the contestants, with reference to Mr. Langford's mental condition, each and all declaring that, in their opinion, the deceased was a man of unusually bright mind, and relating various incidents which had occurred during their respective relations with him, business and otherwise, in support of their views on the subject.

At the close of Mrs. Marston's examination, court adjourned for the day, the matter going over until Tuesday morning next.

THE CRYSTAL SPRINGS CASE.

Judge Van Dyke and a jury were again occupied all day, in Department Four, yesterday, in listening to the expert testimony introduced by the plaintiff in the case of the city of Los Angeles vs. the Crystal Springs Land and Water Company, the witnesses examined being J. W. Potts, J. J. Warner, and Engineers B. Bassell, B. S. Eaton, Gervase Furell and J. H. Dockweiler. Their testimony related to the topography of the country in the vicinity of the point on the Los Feliz Ranch where the defendant corporation obtains its supply of water, the formation of the soil there, the location of defendant's pipes and the river, and the sources of supply of both.

TO QUIET TITLE.

Judge Shaw yesterday rendered his decision in the cases of J. J. Charnock et al., and Samuel Cripe vs. Anderson et al., two actions to quiet title to tracts of land of six and seven and one-half acres, respectively, in the Rancho La Ballena, findings and judgment being ordered for the plaintiff in each case, in accordance with the following written opinion filed therein:

The two cases above named were submitted together, upon the same evidence. The contention in the cases

arises upon the question of the true location of the boundary-line which divides the lands of defendants on the one side from the respective tracts of the two plaintiffs on the other.

It is, I think, clearly shown that, by the evidence, the post at the southeast corner of the land of plaintiff Charnock was set in the original partition of the entire ranch, and that the line as then delineated upon the ground was made to conform to the position of this corner-post, as so established at that time. It also appears that the road along this line was used in conformity to the line thus established for many years, and until the survey and location of the road by Stafford, the County Surveyor.

This post was set at a point too far to the east, if we consider its location with reference to a straight line running from station 135 north, 324 degrees west, but if considered with reference to its distance from the sea, as given in the survey, and to the number of acres given to the predecessors of Charnock in the partition, then it was put in about the true position.

The defendant contends that the true course of the line must control its location. This would be true if there were no monuments set on the ground along the line.

"Taking the map, together with the description of the several tracts given in the report of the referees who made the original partition, and it appears that this stake was set in the line in controversy, and that it was so set as the southeast corner of the tract of land now belonging to the plaintiff, Charnock.

"This being the case, I am of the opinion that the line so located must be taken as the true line, regardless of the question of whether it is a straight line as required by the course or not.

"Monuments prevail over courses, and distances in all cases where the monument can be identified and its original location determined. In this case I do not think there is any substantial doubt as to the original location of the post in question.

"The fact that it is now ascertained that the surveyor in laying out the tract in the original survey made a mistake in running this line, or in setting the post, cannot change the rights of the parties as fixed by the monuments set by him, and adopted in making the partition. Such a doctrine, if carried out, would change the lines of every tract of land in the country every time a new surveyor was called upon to verify the original courses and distances, or whenever more perfect instruments made possible a more accurate survey.

"A purchase of land according to a survey is held to be a purchase of the land as it was actually surveyed and marked on the ground, and not of the land as it may be shown on the surveyor's maps, or upon his report of the survey. The survey is the ultimate criterion of the location. If the actual landmarks can be ascertained, they always control."

IN THE FEDERAL COURTS.

The Federal grand jury met yesterday morning for a brief session to hear testimony in cases pending before them.

In the matter of the appeal in the case against Lou Keen, a Chinaman recently ordered deported by Commissioner Van Dyke, Mr. McComas made a motion to admit the defendant to bail before Judge Ross yesterday, which was denied.

The following orders were made in the District Court yesterday in respective causes: United States vs. H. S. de Long, demurrer to indictment submitted; United States vs. Florenzo Estrada, demurrer overruled, plea of

not guilty entered, and case set for December 7 for trial; United States vs. Charles Nickel, plea of not guilty entered, and trial set for December 8; United States vs. James Maxwell, demurrer overruled, plea of not guilty entered, and trial set for December 4; United States vs. A. D. Andrews, further time to plead granted; United States vs. John Cameron, plea of not guilty entered, and trial set for December 20.

After the foregoing orders had been entered, the court adjourned until Monday.

Court Notes.
Upon motion of the District Attorney an information was filed in Department One yesterday morning charging John Reedy with burglary, committed on November 14, at the residence of Mrs. Ella Berry, No. 715 South Olive street, and Judge Smith set the arraignment of the defendant thereon for Monday morning next.

Frank West, alias H. W. Sheldon, appeared before Judge Smith yesterday morning to answer to the charge of having burglarized Eckert's & Hopt's restaurant at Santa Monica on the night of November 13, last, and upon entering his plea of not guilty, was sentenced to imprisonment at San Quentin for the term of one year.

Notices of appeal having been filed in the case against Mrs. E. A. Drummond, false pretenses, both of which were recently decided by Judge Smith adversely to the prosecution, technical points, the District Attorney was granted an extension of twenty days' time yesterday in which to prepare the drafts of his bills of exception.

In the Probate Court yesterday morning, Judge Clark allowed the final accounts in the estates of Louis C. Drummond, deceased, and Julia A. Dowling, deceased; granted letters of administration to S. R. Gunn in the estate of Mary B. Gunn, deceased, and admitted to probate, Edwin F. Bailey being appointed executor thereunder, without bond.

Upon motion of G. J. Denis, Esq., and presentation of his certificate from the Supreme Court of the State of Georgia, William Haight, Esq., duly admitted by Judge Clark, yesterday afternoon, to practice in the Superior Court of this county.

The defendants in the case of T. Anderson vs. S. Littlefield et al., an attachment suit, having allowed the matter to go by default, Judge Shaw yesterday morning ordered judgment in the sum of \$550 and costs, against them, as prayed for.

Milo B. McKinney, a native of New York, 28 years of age, was taken before Judge Shaw and Commissioners McGowan and Wernick, for examination as to his mental condition, but, although he evinced signs of incipient paresis, there was no evidence to show that he was dangerous, either to himself or others, and he was discharged. Judge Shaw yesterday afternoon heard and granted the petition of John Huber, for his release, through the medium of habeas corpus proceedings, from the San Pedro jail, it appearing that he had been arrested on November 2, on a charge of disturbing the peace and kept in jail until the present date, without having been taken before a magistrate, as the law required must be done with every offender within a reasonable time.

New Suits.

Among the documents filed with the County Clerk yesterday were the preliminary papers in the following new cases:

Metropolitan Loan Association vs. Thomas McCarty et al.; suit to foreclose a mortgage for \$11,000 on a lot on Pennsylvania avenue.

Alexander McLeellan vs. Judson M. Davis et al.; four suits to quiet title to lots in the Waverly tract.

P. Fitzwilliam vs. Charles N. Will-

iams et ux; suits to foreclose two mortgages for \$1500 each on fifty acres of land in Crescenta Canyon.

Estate of H. K. S. O'Melveny, deceased; petition of Henry W. O'Melveny for letters of administration.

Today's Calendar.

S. R. Brown vs. D. E. Barton; for possession.

BOYLE HEIGHTS.
"All-day" Meeting of the Methodist Church, Personal and General.

Ground was broken yesterday on Pennsylvania avenue, which is to be graded from St. Louis to Bailey street.

Samuel B. Johnson, who was reported as being very low on Wednesday, died the same night and was buried from his residence on Michigan avenue on Thursday afternoon.

Miss Mae Davidson has returned from Duarte, where she has been for three weeks visiting her sister, Mrs. Charters. Cards are out announcing the coming marriage of Miss Addie Smith of Brooklyn avenue to M. Bryant. The wedding is set for next Wednesday evening, and will take place at the house of the bride's aunt, Mrs. Humphreys.

There was a large attendance at the Methodist Church yesterday, it being the occasion of the "all-day" meeting for which the members have been preparing for some time. At 9:30 a. m. Mr. Robinson opened with a prayer and praise service, and Mr. Wood delivered a sermon, occupying the time until the noon hour. After lunch, partaken of in the church parlors, another praise service was held, and Mr. Robinson preached, the afternoon service closing with a regular old-fashioned "love feast," conducted by the pastor, Rev. Mr. Breese. Last evening there was a mass-meeting of the Epworth League. Short talks and testimonies, and gospel songs, led by H. Smith of the First Methodist Episcopal Church, constituted the programme, which was a thoroughly pleasant one to the many, both young and old, who were present.

A Game Too Many.

Louis de George, Steve Krato and one John Doe were arrested last Thursday night by Constable Richardson for grand larceny. The men had been engaged in a game of poker with a third party, and in the course of the evening won \$100 from the latter, who accused them of unfair playing.

WOMEN'S CURIOSITY.

Every Woman in Town Wondering Who Will Get Them.

One of the most liberal offers ever presented to the ladies of this city is the one now offered by the Unique. A handsome piano lamp, a beautiful ladies' writing desk, an exquisite parlor chair, and an ornamental French clock are to be given away. Every lady purchasing one dollar's worth of goods is presented with a ticket entitling her to a chance for these elegant gifts. Kid gloves that fit, corsets that are reliable, hosiery that is fast black, and underwear that is warranted non-shrinking, are kept by the Unique, No. 23 South Spring street, near Third street.

TARIFF ON FRUITS.

California Does Not Favor
a Change.Action Taken by Chamber of
Commerce Directors.The Merchants' Association Fair
Strongly Indorsed.More Favorable Railroad Rates for the Mid-
winter Fair, or No More Subscrip-
tions—Some Errors
Corrected.

The board of directors of the Chamber of Commerce met yesterday afternoon at 3 o'clock. There were present Directors Klokke, Stinson, Jevne, Parsons, Pike, Jones, McGarvin, Lankershim, Severance and Freeman. Director Lankershim occupied the chair.

A communication was read from E. W. Maslin, secretary of the State Board of Trade, stating that the State board proposed sending Hon. John P. Irish as a special delegate to the next session of Congress, to represent the interests of the fruit-growers of California in matters relative to changes in the tariff, and asking that the chamber state its position on the question of the tariff on semi-tropical fruits.

The secretary was instructed to inform Mr. Maslin that resolutions had already been passed by the chamber, advocating the continuance of the tariff on semi-tropical fruits.

A communication was read from E. K. Wood, chairman of the Committee on Entertainment of the Farmers' Alliance of California, stating that the supreme council of the Farmers' Alliance, comprising representatives from all the States of the Union, was about to consider propositions with regard to their next meeting, and asking that the chamber assist in the effort to bring them to Los Angeles. It was moved and carried that he be informed that the chamber would provide a hall for their meeting, and would undertake to arrange for some excursions for them.

A telegram was read from the Midwinter Fair Committee now in San Francisco negotiating with the Southern Pacific Railway with regard to the time limit on excursion tickets and excursion rates, to the effect that the best proposition they had been able to secure was for a twelve-day extension of the time limit at one and one-fifth fare. The principal subscribers to the Midwinter Fair fund, who were present at the meeting, gave it as their opinion that the proposition would not be satisfactory to the people, and after some discussion it was decided to instruct the secretary to telegraph immediately as follows to the committee in San Francisco:

"At a meeting of the board of directors of the Chamber of Commerce and subscribers to the Midwinter Fair fund, it was unanimously resolved that you should insist upon visitors having not less than forty days in California, and that the Southern Pacific Company should sell excursion tickets from and to all points in California at one fare for the round trip, good for thirty days. Unless these points are conceded, it will be impossible to collect the subscriptions or raise any money."

Director Klokke brought up the matter of the floral fair, which the Merchants' Association of Los Angeles

proposes to give in this city in the course of the winter, and offered the following resolutions:

"Whereas, the Merchants' Association of the city of Los Angeles is now actively engaged in organizing for the purpose of holding in the city of Los Angeles, a floral and citrus fair, a public spirited movement entitled to the cordial and undivided support of all our citizens; therefore, be it

"Resolved, that the Chamber of Commerce, which, from its first inception, has been the promoter of many enterprises having in view the prosperity and fame of Los Angeles, regards with pleasure the efforts made by the above-named organization, and tenders it its unqualified sympathy and support, earnestly hoping that the fair proposed shall meet with the success it so richly deserves."

While the resolutions were being discussed, Mr. Freeman called attention to the fact that some members of the association seemed to be under an erroneous impression that it was the Chamber of Commerce that had asked for the \$5000 from the supervisors, for the Midwinter Fair, which was not the case; that they were also mistaken in supposing that the chamber had ever opposed the holding of a citrus fair here in Los Angeles during this winter. In proof of this, Mr. Freeman cited the resolutions that were passed at the meeting of the chamber only a few days before the Merchant's Committee had waited upon the Board of Supervisors to protest against the grant of \$5000. These resolutions were as follows:

"Resolved, that the Southern California Citrus Fair, whenever held in the city of Los Angeles, has proven a financial success, gratifying alike to exhibitors, its patrons and the public generally.

"That, in view thereof, we most earnestly request the State Board of Agriculture to again designate Los Angeles as the point for holding the next citrus fair, and that we call upon our representatives on said board, in the interest of the citrus fruit-growers of Southern California to use their best endeavors to secure said location.

Mr. Freeman stated that the directors of the chamber would be glad to assist the merchants in their endeavors to have the citrus fair here.

Director Klokke's resolutions were then put, and were unanimously passed.

The board then, on motion, adjourned.

ALHAMBRA ATHLETES.

The Field-day Postponed Until the 9th of
December.

The field-day of the Alhambra Athletic Club has been postponed to December 9, falling on Saturday. The club does this that the medals and other prizes will be on hand. A year ago the club numbered five members, now the books show over seventy paid-up members. Athletics are receiving a great deal of attention, and it is expected that the field-day will eclipse many of those held in Los Angeles and Riverside. The best riders and runners in this part of the State have already entered the events, and a grand programme will result. No expense will be spared to improve the track and make the speed fast. While the club does not expect to put up very valuable prizes, yet they will be well worth working for, several gold medals being among the first prizes. The events open to all, are: One-half, one-quarter, mile and two-mile safety, and 100 yards dash. The rubber game between the High School and the Alhambra Athletic nine will be played in the morning, and one admission will be good for the entire day. The fee will be 25 cents.

BUSINESS.

FINANCIAL AND COMMERCIAL.

LOS ANGELES, Nov. 24, 1893.

The week has been a good one for other cities than Los Angeles. The weekly statement of the Bradstreet agency, as telegraphed to the Coast, shows that St. Louis and Baltimore banks are also to be found on the right side of the ledger. The percentage of increase, however, is very small, as compared with the percentage for this city.

Another reaction set in, in the New York stock market, today, which, however, was slight and of brief duration, and the upward movement was resumed, and continued, with but little interruption, to the close. When compared with yesterday's final sales, prices ranged from 1/2 to 3/4 per cent. higher.

Government bonds closed firm. Bradstreet's.

NEW YORK, Nov. 24. Among the weekly bank clearing compiled by Bradstreet, for the week ended November 23, the percentage of increase or decrease of several leading cities is given as follows:

CITIES.	Amount.	Inc. Dec.
New York	\$20,000,000	17.2
Chicago	18,100,000	23.0
San Francisco	15,100,000	12.1
Philadelphia	14,100,000	12.1

Rev. R. M. Webster, for more than twenty years a prominent Congregational minister, has recently embraced the Liberal faith, and, last Sunday, at Music Hall, he inaugurated, with remarkable success, a movement for establishing in Los Angeles a broad, free church. The congregation was large, intelligent and intensely earnest, and the music was exceedingly fine. Tomorrow, at 11 a.m., Mr. Webster will preach at Turnverein, or Music Hall, which will be warmly attended under the direction of Mr. and Mrs. Modini-Wood.

The Spaulding illustrated lecture on "Ancient Roman Amusements" at Unity Church, Monday evening, will give a vivid impression of the scenic plays, chariot races and gladiatorial combats. People are finding that these lectures furnish in an attractive way, fresh and useful information upon topics of permanent interest.

Given a Heavy Sentence.
Thomas Martin, one of the men who stole several articles of value from a Chinese store on Main street the other day, was convicted of petty larceny. Martin's associate in crime was not arrested, and has not since been found. Martin undoubtedly counted upon being let off with a light sentence, but Justice Austin gave him a heavy one, ordering that he pay a fine of \$150, or languish for 150 days in jail.

ORANGE, LEMON AND OLIVE LAND.
And Orange and Lemon Trees on Five and Ten Years' Time.

This land is located at Mentone, and Redlands, and includes water piped to each ten-acre tract. Mentone lands grow the finest fruits of nearly all kinds, grown in the world. Some of this winter's orange crop is already sold at \$3.50 per box, and some sold last spring at \$4 per box from trees planted only four years. Choice pieces can still be bought at \$25.00 to \$30.00 per acre. I will furnish the choicest trees in the market and plant the land at \$50 per acre. Will only require one-third cash down, balance in five equal annual payments. Have very choice land one mile from center of Redlands, only \$100 cash payment down and six at Redlands, all in bearing. If you want pure water, pure air, good train service on two railroads, good society, cheap ice, electric lights in your house as cheap as tallow candles, go to Mentone, where a case of malaria, rheumatism, asthma or throat trouble is never seen, except in print. For further particulars apply to W. P. McIntosh, general agent, No. 144 South Main street, Los Angeles, Cal.

SATURDAY
Nov 25/93

Today Yale and Harvard will illustrate the possibilities of kicking at Springfield, Mass.

Schaff of Pennsylvania University and Moffat of Princeton are the referees, and will pass upon the quality of the kicks. It's apt to be pretty high, as the members of the opposing teams are well footed, and feet tell in kicking. They are all kickers in both teams.

You can find no kickers, however, among buyers of our holiday goods. Curious and all sorts of useful articles from China, Japan and Mexico. Indian and California goods in great profusion. Don't fail to visit our store. All goods packed free of charge.

PABST MILWAUKEE BEER WINS.

The PABST BREWING COMPANY has been awarded the highest points of merit on each article they manufacture, at the World's Columbian Exposition. Each separate beer has defeated all similar beers of its respective class. Pabst Hofbrau scored higher than the Royal Hofbrau of Munich, and the "Best" Tonic scored the 100 points of perfection, an altitude of merit supreme and unequalled. This gives to Pabst, Milwaukee,

consisting of an award on ten separate products. A victory complete and absolute UNPARALLELED IN THE HISTORY OF EXPOSITIONS.

This announcement of the first and only report of the judges was made officially for the first and only time on Wednesday, Nov. 15, 1893, at 5:30 p. m., by John Boyd Thacher, chairman on awards—hence all previous statements from every source have been unauthorized and misleading.
